

FOR VERTICAL & INDOOR FARMS

Your farm, alive in 3D.

Every floor, crop and crate, from seed to delivery, in one live view.

WHAT YOU GET

● Floor by floor

Click any floor to zoom in. Air, CO₂, water and lights sit right where the sensors are.

● Light recipes

Compare spectrums and hours per floor, and see the effect on growth speed and energy per kilo.

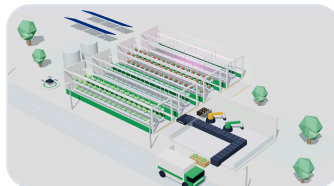

● Seed to plate

Follow every batch through harvest, packing and delivery, with a live log of what happened.

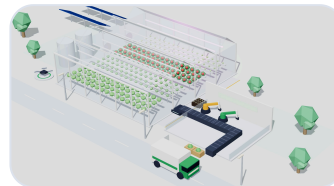

BUILT FOR

Vertical tower

Container farm

Hydroponic greenhouse

Research lab

THE PILOT

3 months free, built with you

1

Tell us about your farm

A 2-minute form, or layout photos on WhatsApp. A spreadsheet is enough.

2

We build your twin

Your rooms, floors, racks, lights and sensors, in about two weeks.

3

Use it free for 3 months

Share a 2-minute feedback form every two weeks. That's it.

See it with your farm's name

Scan to open the live demo. Type your farm's name and explore.

Or message us: WhatsApp +962 78 7016 351 hello@laminafarm.app
